

ILS RWY 24

The chart is a VFR sectional map of the New York City area. It features a central circle representing a 25 NM radius from New York City. Key elements include:

- Airports:** LGA (LaGuardia), EWR (Newark), and JFK (John F. Kennedy) are shown with their respective runways and communication frequencies.
- Navigation Aids:** VORTAC stations are located at LGA, EWR, and JFK. DME stations are also indicated.
- Communication:** Frequencies for ATIS, Tower, and Unicom are provided for each airport.
- Terrain:** Elevation contours and spot heights are shown throughout the area.
- Obstacles:** Obstacle symbols with their MSL and AGL heights are plotted.
- Flight Paths:** Various flight paths and holding patterns are depicted.
- Scale:** A scale bar indicates 25 NM.

TRENTON (CYTR)

ILS RWY 24

Effective 3 AUG 2006 - 31 AUG 2006
